

Country fact sheet Portugal

ESRA 2015 results

The ESRA project is a joint initiative of research institutes in 17 European countries aiming at collecting comparable national data on road users' opinions, attitudes and behaviour with respect to road traffic risks. A common questionnaire was developed in English (UK) and translated into 20 different country-language versions. The themes covered in the survey are: attitude towards unsafe traffic behaviour, behaviour of other road users, subjective safety and risk perception, involvement in road crashes, reported police checks and perceived likelihood of getting caught for traffic offences, self-declared (unsafe) behaviour in traffic, support for road safety policy measures and use of different modes of transportation.

Data collection took place simultaneously in all countries in June/July 2015. In total, ESRA gathered data from over 17,000 road users, including almost 11,000 frequent car drivers. An overview of the project and the results are available on www.esranet.eu. The following figures show a core set of variables in which Portugal (green) is compared with the European ESRA mean (white).

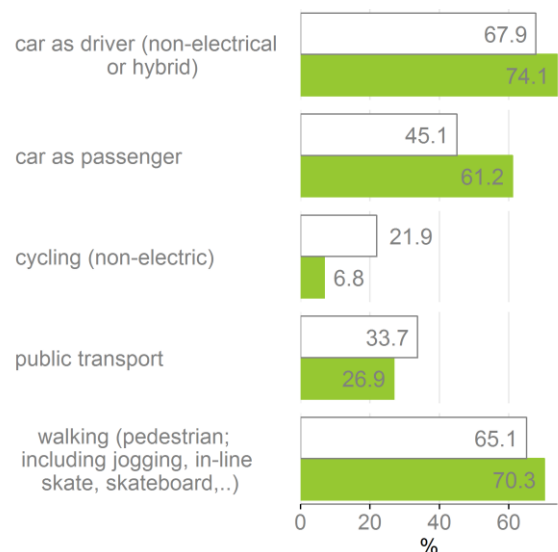

General RS

How concerned are you about each of the following issues? (4-point scale, 1=very concerned to 4=not at all concerned) - % of respondents feeling (very) concerned (1-2)

Mode of transportation

What were your most frequent modes of transport during the last 12 months? - % of respondents choosing this mode as one of their top 3 transportation mode

Self-reported behaviour

In the past 12 months, as a road user, how often did you...? (5-point scale, 1=never to 5=(almost) always) - % at least once (2-5)

Speed

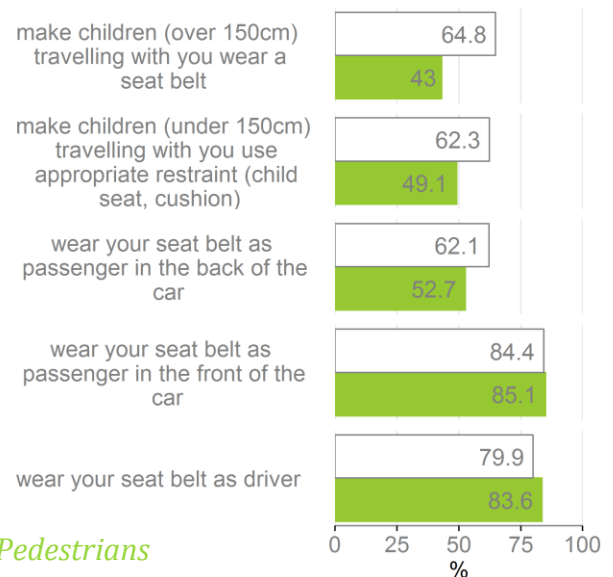

DUI

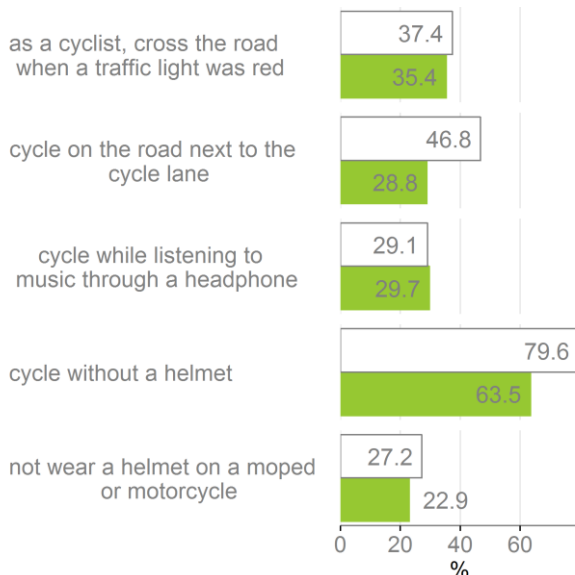

Distraction & Fatigue

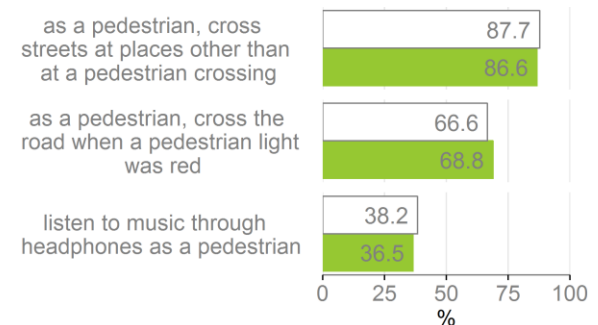

Seat belt and Child restraint systems¹- % almost always (5)

Cyclists & Motorcyclists

Pedestrians

¹ The seatbelt related items describe safe behaviour – in contrast with the other items

Acceptability – personal

How acceptable do you, personally, feel it is for a driver...? (5-point scale, 1=unacceptable to 5=acceptable) - % (rather) acceptable (4-5)

Speed

DUI

Distraction & Fatigue

Seat belt and Child restraint systems

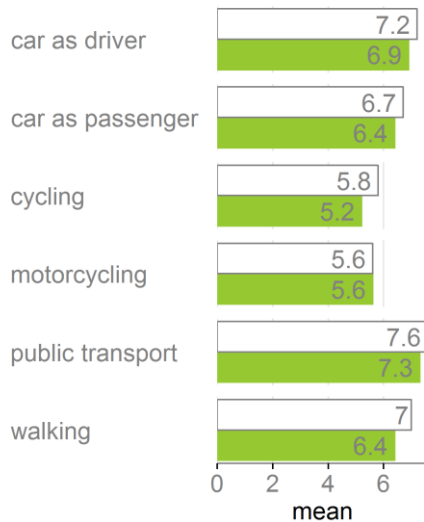

Acceptability- others

Where you live, how acceptable would most other people say it is for a driver...? (5-point scale, 1=unacceptable to 5=acceptable) - % (rather) acceptable (4-5)

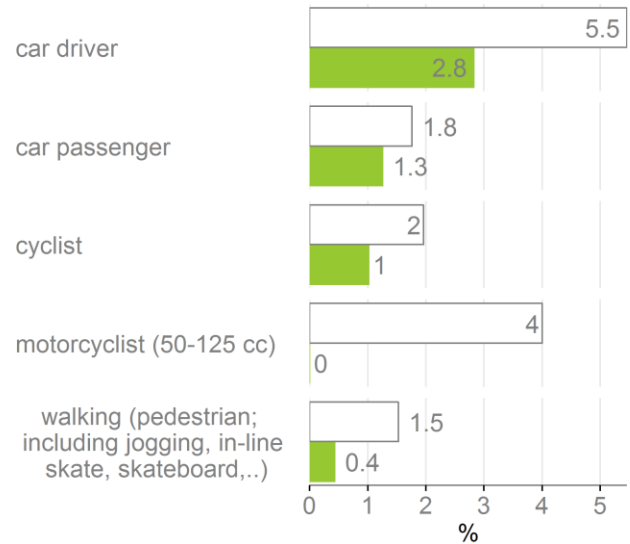

(Un)Safety feeling

How (un)safe do you feel when using the following transport modes...? (11-point scale, 0=very unsafe to 10 very safe) - mean of the 10-point scale

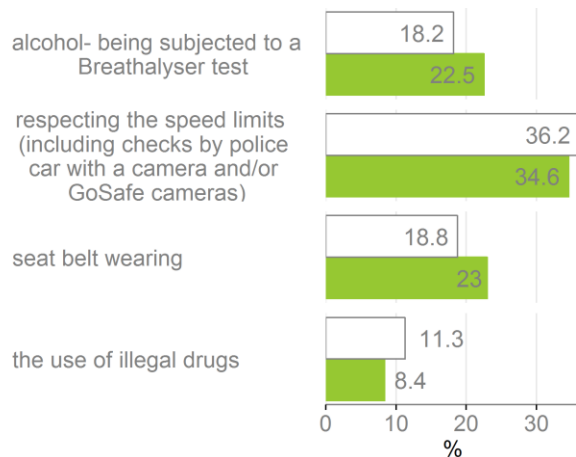

Involvement in road crashes

In the past three months have you been involved in a road traffic accident as...? - % at least once

Enforcement

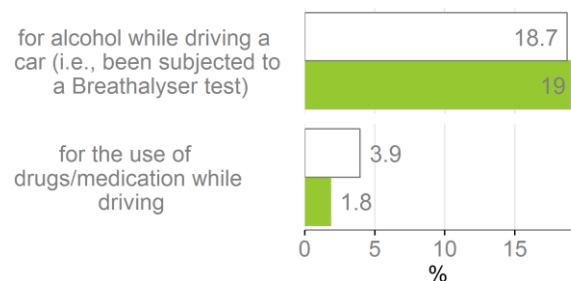

On a typical journey, how likely is it that you (as a driver) will be checked by the police for...? (5-point scale, 1=very small chance to 5 (almost) always) - % (very) big chance

In the past 12 months, how many times have you been stopped by the police for a check? - % at least once

In the past 12 months, how many times were you checked by the police...? - % at least once

Background Data

Basic data of Portugal in relation to the European average².

TOTAL	2013	634	100.0	25888	100.0

European sum computed with the most recent available year by country (2009: BG, EE; 2010: MT, SK; 2012: IE; 2013: BE, DK, EL, ES, FI, FR, HU, IT, LT, NL, PL, PT, SE, SI; others: 2014)

Persons killed in road accidents by transport mode (CARE database)

Mode of transportation	year	PT	EU
		absolute number	absolute number
car (including taxi)	2014	223	11768
moped	2014	43	737
motor cycle	2014	91	3776
pedal cycle	2014	35	2108
pedestrian	2014	145	5681

European sum computed with the most recent available year by country (2009: BG; 2010: MT; 2013: EL; IE; SI, SI; others: 2014)

Population

	year	PT	EU
population (M. inhab.)	2014	10.4	502.7
density (inhab./km ²)	2014	112.8	117.2

Age Distribution

ages	year	PT	EU
0-14	2014	14.6	15.6
15-24	2014	10.7	11.3
25-49	2014	34.9	34.7
50-64	2014	20.0	19.8
65-79	2014	14.3	13.4
≥80	2014	5.5	5.1

% of the population

Individuals' level of internet skills³

level	year	PT	EU
low	2013	21	30
medium	2013	32	35
high	2013	13	12

% of the total number of individuals aged 16 to 74

Low level: Individuals who have carried out 1 or 2 of the 6 internet-related items.

Medium level: Individuals who have carried out 3 or 4 of the 6 internet-related items.

High level: Individuals who have carried out 5 or 6 of the 6 internet-related items.

² The European average is based on the EU-27: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden and the United Kingdom.

³ The six internet-related activities which were used to group the respondents were: (a) use of a search engine to find information; (b) send an e-mail with attached files; (c) post messages to chat rooms, newsgroups or any online discussion forum; (d) use the internet to make telephone calls; (e) use peer-to-peer file sharing for exchanging movies, music etc.; (f) create a web page.
